

**DIRECTIONS**

Complete the [dynamic warm-up](#) before doing the workout. The chart below breaks down the workout. There may be two variations for some exercises — choose what works best for you. Perform the circuit of exercises for the designated number of reps or time, unless otherwise noted. Complete the first circuit before moving on to the second. Complete three sets (three times through all the exercises) in each circuit. There should be minimal rest between exercises. For all single-arm or single-sided exercises, perform repetitions on both sides before moving on to the next exercise.
